Water Effect Light 300 LED Uplight IP20 / IP65

Wall-mounted luminaire which incorporates a series of white LEDs with different colour temperatures run by a 4 or 8 channel DMX controller which, in combination with a rippled glass panel, creates a slowly changing effect of light reflected from flowing water. An RGBW version is also available.

Product description:

Integral mains voltage AC to DC 4 channel DMX driver/controller, 230 Volt AC input or remote 4 channel DMX driver/controller

Satin black, satin white or any RAL colour finish

Anti-glare accessories available

A wide range of white LED colour temperatures and CRI options are available, as well as RGB LED options. Custom combinations of LED types can create different effects
