

Radiant Architectural Lighting provides innovative lighting for projects around the world.

For more information about the lighting systems used on this project, or any other solutions from our extensive range, please contact our team by telephone on + 44 ( 0 ) 20 8348 9003 or by Email at [david@radiantlights.co.uk](mailto:david@radiantlights.co.uk) and we will be happy to discuss your project or arrange a meeting.

## Landmärket residential tower, Stockholm

Landmärket residential tower, Stockholm  
Luminaire concept and lighting design by Andreas Ejhed and Daniel Hoderne of AF lighting

Each Water Effect Light incorporates 4 different colour temperature LEDs ranging from 4000K to 5000K that are controlled by an integral 4 channel DMX driver to create a gently undulating lit effect. The light output from the 4 LEDs passes through a rippled glass and onto the ceiling above to create the effect of light reflecting off gently moving water. Both IP20 and IP65 rated versions are used on the project.

Water Effect Light IP20 & IP65  
Interior and Exterior DMX controlled, dynamic LED effect lighting

D100 IP20 Split RGB  
LED spotlight range IP20 with separate RGB spotlights  
Up to 30 Watts per fixture (10 Watts per module)
