Colour Ray Lighting System 150 IP20

DMX controlled, dynamic, interior RGBW LED effect light

Product description:

Wall-mounted luminaire which incorporates a series of LEDs with an array of different colour LEDs, run by a DMX controller that, in combination with a series of chrome bars, creates a dynamic, decorative lit effect

Integral mains voltage AC to DC DMX driver/controller, 230 V AC input or remote DMX driver/controller

A wide range of white LED colour temperatures and coloured LED options can be incorporated in this system. Combining multiple LEDs and variations in the DMX program creates unique lighting effects which can be customized for each project

Light output up to 1,500 lumens with all LEDs on full power

Various LED colour temperature and CRI options available

Satin black, satin white or any RAL paint colour finish for outer body finish

Up to 1,500 Lumens
