

# Flaplight

## LED Linear display lighting system

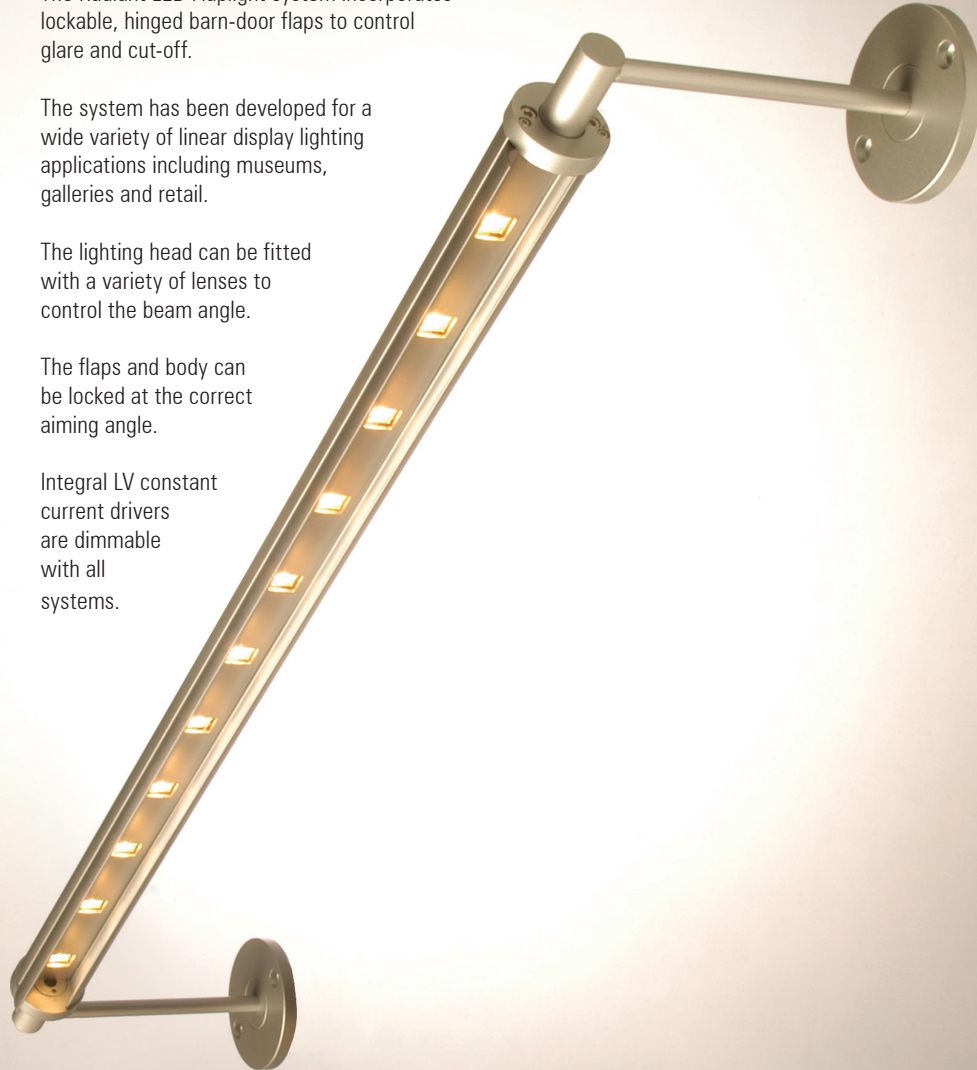

The Radiant LED Flaplight system incorporates lockable, hinged barn-door flaps to control glare and cut-off.

The system has been developed for a wide variety of linear display lighting applications including museums, galleries and retail.

The lighting head can be fitted with a variety of lenses to control the beam angle.

The flaps and body can be locked at the correct aiming angle.

Integral LV constant current drivers are dimmable with all systems.

Up to 2,800 Lumens per mtr

Suspension version (above)

Floor mount base version

Each of the flaps can be locked using an Allen key
