

Micro Pendant System IP20

Micro Reflector Pendant

Miniature interior 3 Watt LED pendant

Micro Reflector LED Pendant

Miniature LED pendant for use with Radiant Micro Track system or with surface mount base

Designed to be used in a wide variety of hospitality and residential applications where the quality and control of light is of high importance.

Product description:

Miniature 3 Watt pendant

Each pendant - 6 x 0.5 Watt LEDs with white reflector

Various LED colour temperature and CRI options available

The light output contains very little heat or UV - ideal for the illumination of sensitive materials

Miniature DC to DC dimmable LV constant current driver housed in the track adapter or surface mount base. Remote AC/DC constant current driver option also available.

Dimming options available: 1 - 10V, DALI or DMX

Decorative 3mm \varnothing silicone covered cable, 4mm \varnothing fabric covered cable, or 4mm \varnothing rod suspension.

Any powder coat or anodised finish - white reflector on visible interior surface

Up to 200 Lumens per pendant
